TCLL: 40.0 lb/ft²

TCDL: 15.0 lb/ft²

BCLL:

BCDL: 5.0 lb/ft²

Structural Notes:

1. This is a placement diagram only. Contractor is responsible to verify all conditions
2. Some spaces may require on-site adjustments to suit plumbing, heating, etc.
3. Webs must line up to allow installation of continuous 2x4 strong-backs at every vertical location (U.N.O)
4. All arrows on ends of trusses should point up.
5. 3/4" T&G subfloor to be glued and screwed or nailed.
6. Truss depth is 18" deep at 19.2" O.C.
